Coffee & Chocolate

What is Cafe Femenino?

High quality coffee produced entirely by women, Café Femenino assures that women coffee producers are empowered, have a fair income and claim their rights. The Café Femenino project was founded in 2004, in response to an industry where women have traditionally been subject to harsh gender inequality, poverty and abuse.

Why buy Fair Trade?

Fair Trade builds equitable and sustainable relationships with small-scale producers, improves standard of living and results in high quality products for consumers. It assures fair prices to producers, assures that there is no forced labour, improves social conditions in producer communities and supports sustainable farming practices.

Why buy Organic?

The vast majority of foods we consume are grown with the assistance of massive fertilizer and pesticide use. These chemicals have a debilitating long-term effect on the environment and the health of humans and animals. Organic foods are grown in a natural, balanced way that preserves the environment and the health of producers and consumers. No pesticides means cleaner water, enriched soil, and cleaner air.

Why buy from us?

This product is packaged by the Immigrant Women's Centre. Proceeds from the sales of this product support the Centre's work towards micro-lending programs and economic development for immigrant and refugee women and their families.
